

IGNITE

**Accelerate potential into excellence
with Earnshaw's IGNITE Program.**

**Starting high school is more than a transition, it is
the beginning of a future filled with opportunity.**

**IGNITE is Earnshaw State College's premier
academic enrichment program, designed to
challenge curious minds, develop future-focused
skills, and inspire excellence.**

Through hands-on experiences in STEM, languages, digital technologies, sport, hospitality and creative industries, students will engage in authentic learning that promotes critical thinking, problem-solving, innovation and collaboration.

Each program has been carefully designed to provide academic challenge while connecting learning to exciting future careers and pathways.

Whether your child dreams of becoming a scientist, media producer, global business leader, elite athlete or chef, **IGNITE provides the opportunity to explore passions, discover strengths and build confidence for success in high school and beyond.**

This program is open to all students in Years 5 and 6.

Places are limited to 15 students per program.

Secure their place today and ignite their future.

Future Forensic Scientist

THE CASE IS ON !

The prized Earnshaw Eagle mascot has vanished from the school trophy cabinet. Security cameras mysteriously stopped working at 8:15pm, and four suspects were seen near the Science Block earlier that day.

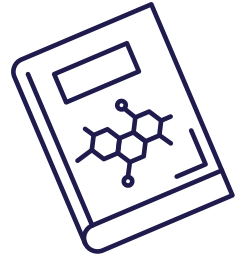

IGNITE your problem solving skills!

Students will step into the role of forensic scientists, applying scientific investigation, mathematical reasoning and critical thinking to analyse evidence and uncover the truth.

Participants will:

- Conduct fingerprint analysis
- Investigate evidence using chromatography
- Analyse simulated blood samples
- Calculate and compare footprint measurements
- Decode encrypted messages and clues
- Develop logical reasoning and problem-solving skills

This academically challenging and hands-on experience introduces students to the fascinating world of forensic science while showcasing pathways into careers such as criminology, forensic investigation, medicine, law enforcement, scientific research and data analysis.

Do you have what it takes to crack the case and IGNITE your future in STEM?

Future Media Creator

Create. Innovate. Influence.

Step into the exciting world of digital media and become a Future Media Creator for the day.

Students will design, produce and publish their own podcast while exploring the creative, technical and strategic processes used by modern media professionals.

Participants will:

- Design a professional podcast brand and cover image
- Develop a podcast concept, treatment and script
- Explore emerging AI technologies for media production
- Learn professional recording techniques
- Edit and produce a polished podcast episode
- Analyse how media creators engage audiences and shape messages

This immersive experience develops communication, creativity, critical thinking and digital literacy skills that are essential in today's rapidly evolving world.

Perfect for students interested in future careers in media, communications, journalism, marketing, design, entertainment, technology and business.

Ready to share your ideas and **IGNITE** your future as a creator?

Think Globally.

Connect Internationally.

HELLO

BONJOUR

こんにちは

Students will explore how language and culture connect people across the globe while developing communication, collaboration and intercultural understanding.

Become an International Language Specialist for a day in this exciting Japanese and Spanish experience.

Participants will:

- Learn new Japanese and Spanish words and phrases
- Explore cultural traditions and global perspectives
- Solve interactive language challenges and missions
- Develop communication and problem-solving skills
- Build confidence as global learners

No prior language knowledge is required.

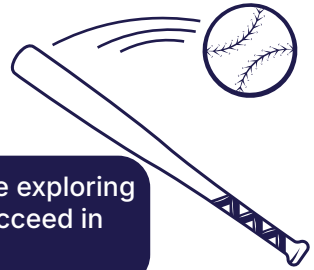

In an increasingly connected world, multilingual communication is a powerful advantage. This experience introduces students to future pathways in international business, diplomacy, tourism, education, trade, aviation and global communications.

Discover new cultures, expand your horizons and **IGNITE** your future as a global citizen.

Future Baseball/Softball Pro

Train. Perform. Lead.

Students will develop fundamental technical skills while exploring the discipline, strategy and teamwork required to succeed in high-performance sporting environments.

Step up to the plate and experience life as a Future Baseball/Softball Pro.

Participants will:

- Develop batting, throwing, catching and fielding skills
- Strengthen game awareness and tactical thinking
- Build teamwork, communication and leadership
- Enhance resilience, confidence and sportsmanship
- Experience Earnshaw's specialist sporting facilities and programs

Beyond the playing field, students will gain insight into the many career opportunities connected to sport, including coaching, sports science, performance analysis, physiotherapy, sport management and athlete development.

Challenge yourself, develop your skills and **IGNITE** your future in sport.

Future Lawyer

Investigate. Argue. Deliver Justice.

Step into the courtroom and become a future lawyer for the day in this exciting mock trial experience.

Participants will:

- Analyse evidence and historical sources to build a case
- Explore how laws help create fair, safe and just communities
- Develop persuasive speaking, questioning and argument skills
- Evaluate different perspectives and competing viewpoints
- Apply critical thinking to make evidence-based decisions
- Collaborate with others in a professional courtroom environment
- Present arguments and work towards delivering a verdict

Students will take on the roles of lawyers, witnesses, jurors and judges as they investigate a case, analyse evidence and present arguments in a realistic courtroom setting.

This academically challenging and engaging experience introduces students to the world of law and justice while building confidence in public speaking, reasoning and decision-making.

Perfect for students interested in future careers in law, policing, emergency services, government, criminology, advocacy and public leadership.

Build your case. Find your voice. **IGNITE** your future in law.

Cook. Create. Innovate.

Designed for aspiring chefs and food innovators, this exciting hands-on experience allows students to step into a professional hospitality environment and discover the science, creativity and precision behind great food.

Students will gain insight into the diverse and dynamic hospitality industry while exploring pathways into careers such as chef, restaurant management, event coordination, nutrition, food science and hospitality leadership.

Participants will:

- Learn fundamental culinary and food preparation techniques
- Explore food safety and hygiene practices
- Create delicious dishes using professional equipment
- Develop teamwork and communication skills
- Build confidence, creativity and problem-solving abilities

Fun, engaging and full of flavour, this experience is the perfect recipe for igniting a future in one of the world's most exciting industries.
